Arrests Made in Two Thefts; Seek Suspects in Third Local Case

Burglaries at a store and three homes were reported during the weekend to Quad-City area police and deputies, with two other burglaries attempted and a variety of thefts occurring at yards, porches and garages.

With a total of 20 theft cases tallied, charges were filed in two instances and suspects in a third case are under investigation.

Joe Radman of Venice reported to Venice police at 10 a.m. Friday that his store building at 1001 Market street had been broken into. Entry was gained by breaking a window. Police said a 20-inch electric fan and an electric sander were stolen.

John Bucky, 1904 Kirkpatrick Homes, reported at 10:40 p.m. Sunday that when he returned home he found that \$20 was missing from his wife's purse. A screen was loose at an open window.

Items valued at several hundred dollars were stolen in a burglary Saturday at the home of Mr. and Mrs. E. W. Grolmes, 2535 Waterman avenue. Entrance was gained between 5:30 and 11:30 p.m. by picking a rear door lock.

The house was thoroughly ransacked with clothing from closets and drawers scattered around the two bedrooms. The silverware was found in the middle of the dining room floor. Taken were a portable television set, a tape recorder, a movie projector and several watches.

Discovery Count Shows Whitsell Beat Rutherford

Louis E. Whitsell, declared to have lost a bid to become the Namecki Township Precinct One Democratic committeeman, actually led the voting.

A discovery count made Friday by the Madison county election canvass board showed Whitsell polled 300 votes to 289 for Rutherford, C. Arnold Rutherford.

The count does not change the outcome, however. It was indicated that Rutherford did not voluntarily vacate the position. Whitsell would have to file a formal election contest in order to be officially seated.

During the contest, another ballot count would be made and the leader in the count would be declared the winner. Whitsell plans to file an election contest.

A contest would have to be filed within 30 days of the canvass, which was conducted June 19. The primary election took place June 21.

Based on the findings of the canvass board Friday, the Precinct One poll judges erred in their count or in their evaluation of the ballots.

The board's initial canvass is based on tally books rather than the ballots themselves. Under the discovery count procedure, sought by Whitsell, the board reconvenes, opens the ballots and recomputes the tally.

The new canvass chairman became president of the Castings Division last December. As yet, the campaign goal has not been set, but the Admissions and Distributions committee, which confers with United Fund agencies and recommends budget needs to the board, is to hold its initial meeting tomorrow.

Steinhaus said the committee this year is headed by Paul Kemp, manager of the A. O. Smith Corp. plant here.

With Gist since 1964

The new canvass chairman has been with General Steel Industries since 1964. Before coming here he was a partner in a Rochester, N. Y., law firm. He has served as corporate vice-president and general counsel since August 1964.

Steinhaus said Remington will name division chairman within a short time to proceed with the organization of this year's campaign. Last year, the fund drive was headed by Mitchell E. Milinski, assistant manager at American Steel Foundries. Last year's goal was \$384,000.

The board president reported he expects to learn in two weeks if a staff of SIU-SU experts will undertake a study of local United Fund agencies to

Swimming Ban at Dam Is Sought By County

Frank Hufstader, 45, Found on Saturday; Son, 13, Still Missing

With the recovery early Saturday of the body of Frank H. Hufstader Jr., 45, who was drowned in the Mississippi River below the low water rock dam, Madison county authorities called upon the St. Louis District Corps of Engineers to post the area for "No Swimming."

Hufstader and his son, Robert, 13, drowned in the swift current while swimming off a sand bar about a mile below the dam. The son's body has not been recovered.

Mr. Hufstader was found about 11 p.m. Friday on a sandbar about a quarter-mile below the point where the dam appeared. His body was recovered about 1 a.m. Saturday by the Alton and Wood River rescue squads, who spent most of Saturday patrolling the river from Venice to the north to the dam in a search for the body.

17 Drownings Last Year

County authorities informed the Corps of Engineers that the weekend that at least 17 drownings occurred along the stretch of river from Venice north to the Hartford Canal last year, and three drownings have been reported already this year.

The Corps of Engineers announced last night that it will be posting a 200-foot section of the Illinois shoreline below the low water dam with "No Swimming" signs. The area is expected to be posted in about a week.

All three victims this year were below the dam, which is immediately south of the Madison Chain of Rocks bridge. This year's victims are Hufstader and his son, and an 18-year-old Madison youth, James Dutton, who drowned June 13 when he slipped from a rock in the river.

Coroner Leonard Davis said the river is extremely treacherous off the sandbars below the dam.

Area Gets 1.14 Inch Rain Early This Morning

An early morning thunderstorm hit the Quad-City area today with a downpour of 1.14 inches of rain and 35 mph winds. The brief but heavy rainfall measured within .65 of an inch the total for the entire month of June.

According to records at the Chain of Rocks locks, a total of only 1.77 inches of rain fell in all of June, or 2.5 inches less than the June normal of 4.27 inches.

High gusting winds accompanied this morning's storm, but no severe damage was reported. Heavy rain temporarily overtaxed the sewers throughout the area and many

street intersections were flooded.

June rainfall left the area 4.88 inches below normal for the first six months of the year. The June fall brought the total to 6.02 inches for the period.

The area registered 16.46 inches for the same period in 1967, or 1.61 inches below normal for the first half of the year. Rain fell on six days during June, with a trace registered on three days. Heaviest fall of any month so far this year was registered in May when a total fall of 5.40 inches occurred.

Illinois Area Airport May Hinge on St. Louis Bond Plan

Proposal that Bi-State Development Agency act as a metropolitan airport authority for the Illinois-Missouri metropolitan region through purchase and operation of St. Louis-Lambert Municipal Airport was developing into a highly controversial issue today and is expected to greatly influence efforts by Illinois interests for location of a second major airport in the Madison-St. Clair county area.

Recommendations that the Bi-State Agency be given taxing authority to finance purchase of Lambert Airport facilities and that the agency develop future airport facilities on an areawide basis were made to the East-West Gateway Coordinating Council in a six-month study of area airport needs by the Governmental Research Institute. The Gateway Council took no immediate action.

The proposal was made public only a few hours before Illinois state officials, attending a meeting in Granite City of approximately 50 Madison-St. Clair county area planners, business and civic representatives, pledged all-out state support of a move to secure a second major metropolitan airport for the Illinois side of the region. Construction of a second major airport, along with a series of secondary airports, has been recognized in recent years as inevitable if growing aviation needs are to be met.

Says Price Ridiculous
 First opposition to phases of the report urging purchase of Lambert Field by Bi-State came from Mayor A. J. Cervantes of St. Louis who described as "ridiculous" the price projected for purchase of Lambert Airport facilities.

The six-month study prepared by Governmental Research Institute said St. Louis should receive \$17,750,569 for the airport and its facilities—an amount based on the city's investment in the airport. But the report said, \$5,657,558 of this amount is the proportionate share that St. Louis city taxpayers should bear.

This would leave \$12,133,000 to be paid by taxpayers of other parts of the metropolitan region. The study firm recommended that a special tax levy of five cents per \$100 valuation be authorized. Legislation authorizing Bi-State to levy the tax would have to be approved by the legislatures of Illinois and Missouri.

Mayor Cervantes said he has no particular objection to selling city-owned Lambert Airport to a metropolitan airport authority, but that he would be betraying his trust to the people if he were to sell the facilities for less than its appraised value, which is expected to range between \$150 to \$200 millions.

Plan Has Wide Acceptance
 Dispute over the purchase price is expected to become the major stumbling block to fulfillment of the recommendations outlined in the report since the concept of a metropolitan airport authority has gained wide acceptance during the past few years. Donald Gunn, chairman of the St. Louis board of aldermen, said he has always favored the idea of a metropolitan airport authority to handle airport development on an areawide basis.

Lawrence K. Roos, St. Louis county supervisor, said he was glad to learn the recommendations have been made as "I have long felt there is a need for such an agency."

Col. R. E. Smyser Jr., executive director of the Bi-State Development Agency, pointed out that the proposals dealing with a new airport authority must have the full, unqualified support of the area's leaders.

He said the need of an airport authority is no revelation, noting that such a need was reported to St. Louis officials as far back as 1947, and that an area planning firm cited the matter to the Bi-State Agency in 1960.

The study firm told the Gateway Council in its 82-page report that "airports can be better planned and developed as a system than if each individual airport is handled independently."

Area-Wide Problems
 It emphasized that airport problems are an area-wide concern and pointed up the need of a new major air terminal to relieve mounting congestion at Lambert Airport, as well as the importance of an expanded system of secondary ports for private planes.

The report reasoned that Bi-State is best equipped to handle the airport control since it already is experienced in handling transportation systems and already has a geographical jurisdiction necessary to the task. The Bi-State authority encompasses the City of St. Louis, the counties of St. Louis, St. Charles and Jefferson in Missouri and the counties of Madison, St. Clair and Monroe in Illinois.

Bi-State now has authority to issue revenue bonds, and if it were authorized to issue general obligation bonds and to levy a tax for airports, its statewide tax base would permit it to raise the required funds.

Also proposed is the formation of a two-state aviation commission consisting of seven members, one from St. Louis and one from each of the six counties in the Bi-State area. The commission would appoint a director aviation subject to qualifications established by the Bi-State board of directors.

Bond Issue Proposed
 Because of a pending plan by the City of St. Louis to issue \$200 millions in revenue bonds to carry out extensive improvements at Lambert Airport and to purchase a site for a second major airport, it appears likely that no definite action toward sale of the St. Louis-owned airport would be taken under any circumstances until after the Nov. 5 general elections.

A referendum proposal for the bond issue will be submitted at that time. Action to place the proposition on the ballot was taken by the St. Louis board of aldermen only two weeks ago.

Some leaders believe that any decision by St. Louis officials regarding sale of Lambert Airport will be based largely upon the outcome of the vote on the bond issue.

If the bond sale were approved, it was noted, the City of St. Louis would be in a strong position to reject the Bi-State proposal and to proceed with plans to expand Lambert operations.

Approval of the bond proposal in St. Louis also would constitute a serious blow to the hopes of Illinois area leaders to build a second major airport on this side of the river since St. Louis would have financing available for purchase of a new airport site. In such an instance, development of a new airport almost certainly would be kept in the Missouri area.

Spur Illinois Effort
 Efforts of Illinois leaders to locate a second major air terminal in the Madison-St. Clair county area gained impetus last week when Gene H. Graves, director of the Illinois Department of Economic and Business Development, and J. E. Wenzel, director of the Illinois Department of Aeronautics, told a meeting of the Southwestern Illinois Metropolitan Area Planning Commission that the state will fully support a drive for an airport in the Illinois area.

Wenzel told the group that he believed it would be possible to obtain direct state aid for purchase of the airport site when and if one were finally approved, possibly up to 100% of the cost. He said there are three potential airport sites in the Madison-St. Clair county area, but had not named them.

Graves predicted phenomenal growth of the Illinois section of the region if a major air terminal were built. He said growth of industrial, commercial and residential districts near other major airport developments have been "unbelievable."

Both state officials said they have been assisted by Gov. Samuel Shapiro that he will extend every possible assistance by the state to locate a new major air terminal in the Illinois area.

Stop and Frisk Decision to be Meeting Topic

State's Atty. Gen. G. Scroggs announced today he is scheduling meetings for interested law enforcement officers to discuss the recent U.S. Supreme Court decision on "stop and frisk."

Two sessions will be held in the board of supervisors room at the courthouse at 7:30 p.m. July 16 and 17.

Scroggs said that while first reports of the opinion seemed to give law enforcement personnel wide discretion in the field of stop and frisk, that the opinion is more limited in its scope. The session are part of a program by the state's attorney to outline recent U.S. Supreme Court opinions to provide more effective law enforcement in Madison county. He said previous sessions have been beneficial in that there have been successful introduction of confessions in criminal cases even though the Miranda decision severely hampered police.

GC Legion Holds Top Belleville Team to Tie

A contest billed as the feature game of the year turned out to be the best game of the year for the Granite City American Legion baseball team Friday at Wilson Park as it held undefeated Belleville to a 2-2 tie.

The game, which went into overtime, was called after eight innings because of darkness and will be re-scheduled. Belleville had remained undefeated in eight games, while the young local team now has a 1-1 mark.

Pitcher Don Rains went all the way for Granite City, striking out nine batters. Belleville used three top hurlers in Ron Toenjes, Cassig and Fritzsche. Each team totaled

eight hits.

Coach Bill Turpenoff's team, which stranded 11 runners on the base paths, came from behind with two runs in the bottom of the sixth inning to gain the tie.

Mike Dochwat opened with a single, and after Dave Evans last of the seventh inning with none out but the home squad was unable to produce the clincher.

Granite City plays at Collinsville at Fletcher field at 8 p.m. Tuesday. Jim Becker will go to the mound.

Polish Hall Rallies to Take Class A Contest

Polish Hall rallied for nine runs in the bottom of the sixth inning to trip Tony & Joe's 12-10 in a Class A Slow Pitch softball league game Thursday night at Worthen Park.

Two other games were equally close in a four-card package at the park as Sammy's Tavern downed Falstaff 5-3 and Clark's Vikings crippled Credit Union 10-8, while Mexican Honorary Commission defeats the Community Heights Reds 8-3.

An eight-hit attack in Polish Hall's sixth frame was topped by a home run by John Menick, who had three hits for the evening. John Crnkovich blasted a two-run round-tripper in the fourth and Tom Wyrastek, who totaled four safeties, slammed a solo homer in the second.

Bud Gonnell, Rich Patterson and Frank Spahr had two hits each for Tony & Joe's.

Joe Hauptman capped a four-run fifth inning for Sammy's with a triple, while Joe Hiles accounted for the other run with a homer in the second.

Falstaff took a two-run lead in the first, but a single and double by Bill Haven later in the game were insufficient to keep his team ahead.

The Vikings used five singles, a double by Larry Lilly and a walk for six runs in the third inning against Credit Union. Jerry Barnett, Jim Rippey, Jim Rains and hurler Ken Fowler each hit safely twice for the winners.

Credit Union came back with five runs on six hits in the seventh but it wasn't enough. Collecting two hits each were Rich Reutebuch, including a triple, Bill Evans, including a double, and Norm Grote.

Mexican Honorary took command with four runs in the first inning as the first four batters reached base, and hurler Jim Goodrich held Community Heights to three runs in the fourth inning.

Dave Sparks led the winners with three hits, including a triple in the first frame, while Rich Utley had three hits for the losers.

MRS. FLORIAN M. KAUTH, a recent bride. Before her marriage Saturday at Sacred Heart Catholic Church she was Carol Jean Harris, a daughter of Mr. and Mrs. James H. Harris, 2660 Adams street.

Double-Ring Ceremony for Kauth and Harris Nuptials

Miss Carol Jean Harris of Minneapolis, Minn., daughter of Mr. and Mrs. James H. Harris, 2660 Adams street, became the bride of Florian Michael Kauth, whose parents, Mr. and Mrs. Alfred Kauth Jr., reside in Aitkin, Minn., Saturday morning, at Sacred Heart Roman Catholic Church.

Rev. J. Thomas Treece officiated at the 11 a.m. nuptial mass and double-ring ceremony.

The bride selected a floor length gown of nylon sheer over bridal taffeta. Designed with short sleeves and a round neckline, they were edged in small Venise lace flowers. Two rows of Venise lace were re-embroidered down the front of the gown and edging the train, which was gathered at the back.

A crown of lace flowers embellished with tiny seed pearls held in place her shoulder length bouffant veil of bridal illusion, and the bride carried a cascade of white carnations and lily of the valley with ivy.

Miss Claudia Thompson, maid of honor, and Miss Mary Harris, sister of the bride, Miss Leslie Thompson and Miss Barbara Zimmer, served as bridesmaids.

The honor attendant wore a full length gown of lemon yellow linen. White daisies with yellow centers were sewn on the front yoke and on the short sleeves. The back neckline came to a deep V accented with four large covered buttons which secured a two paneled train.

A bow in matching color secured her yellow bouffant veil and her flowers were a nosegay of white daisies encircled daisies, white carnations, variegated ivy and lime green ribbons.

The bridesmaids gowns were styled identical to the honor attendant but were in lime green. Their headpieces were in matching colors and each carried a nosegay of yellow daisies, white carnations, variegated ivy and a lemon yellow ribbon.

Alfred Kauth Jr. attended his brother as best man, and groomsmen included Dennis Raatz, John Matis, brother of the groom, and Raymond Hyovalti, John Robbers and David Adamson served as ushers.

Mrs. Harris chose a beige lace street dress with brown accessories for her daughter's wedding and wore an orange carnation corsage.

The groom's mother, Mrs. Kauth, was attired in a multi-print two-piece suit with blue accessories, and her corsage was of yellow carnations.

A luncheon for the bridal party was given at the Travel-Lodge banquet room immediately following the ceremony.

An evening reception for guests was held at the Travel-Lodge at 7:30 p.m. Mrs. Debra Mills presided over the guest book.

After a wedding trip to the north shore of Lake Superior and Canada, the young couple will reside in Minneapolis, Minn.

The former Miss Harris is a graduate of the high school and is employed by the Department of Defense in Minneapolis. Mr. Kauth was graduated from Aitkin high school and his employment is with the Bureau of Engraving, Industrial Division, Minneapolis.

ABOUT THIS QUESTION: Just as we celebrate our nation's Independence Day on July 4, so too each of us must cherish his personal independence—the joy of making his own way. If each able American can learn a profitable skill and then find employment for it at a skill, personal independence should be within everyone's reach.

\$340,000 Aid Grant for 1268 Students at SIU, Carbondale

GO TO CHURCH ON SUNDAY

Illinois state grants totaling \$340,000 for the 1968-69 school year have been approved by the Illinois Scholarship Commission for 1268 students at the Carbondale campus of Southern Illinois University.

The amount approved to date, Statewide, from September 1968 to June 1967, the State of Illinois provided approximately \$22 million to 41,900 students last year. The increase in either as Illinois state grants created, Adams said, is accounted for by a jump in funds appropriated for this purpose by the General Assembly.

um is \$29 million, half for scholarships and half for grants.

Robt. Rogers Is New Madison Lions Prexy

Rogers, who owns and operates Bob's Barber Shop, at 1213 Madison avenue, Madison, was installed with other club officials at a recent dinner party in the Roundtable restaurant. About 75 members and guests witnessed the ceremony, conducted by Madison Mayor Stephen Maestas.

Other officers elected for 1968-69, include Donald Bridick, first vice-president; Matt Ozanich, second vice-president; George Blava, third vice-president; Madison Police Chief Emmett Pizia, secretary; Fred Duffer, assistant secretary.

SIU Gets Grant to Study Gov't. Manpower Needs

Illinois local governments and their future manpower needs will be studied by the Public Affairs Research Bureau at Southern Illinois University under a \$16,000 grant.

The Bureau received the grant from the Illinois State Board of Higher Education, according to David Kenney, bureau director. Funds for the grant came from the federal

Housing and Urban Development department. The study will concentrate on the manpower needs of local governments from 1970 to 1975 and how educational institutions can help meet them. The project probably will last about one year, Kenney said, and employ a research associate and two half-time graduate assistants. The research associate has not been chosen, Kenney said.

Pool Closed Briefly Last Week for Repairs

Wilson Park swimming pool resumed full operations Friday, following a two-day shut-down to permit installation of new pumping equipment. Harold Brown, park superintendent, reported. A breakdown of the pool pump occurred Tuesday evening, requiring that the facility be closed Wednesday and Thursday.

The closing created little disturbance, the park official said, noting that temperatures dropped to the mid-50 degree mark on the two days and few swimmers sought admission to the pool.

GC Steel to Finish Mill in Indonesia Started by Russia

Granite City Steel International Corp., a subsidiary of Granite City Steel Co., has reached an agreement with the Republic of Indonesia to make a survey as a preliminary to a proposal by the American steel producer to complete and operate an unfinished steel plant 70 miles west of the Indonesian capital of Jakarta.

The unfinished plant would be the first steel mill in the Republic of Indonesia. It would have steelmaking furnaces and the rolling and other facilities used in the production of steel bars, rods, light sections, wire and other steel mill products.

William M. Howard, executive vice-president of Granite City Steel International Corp., conducted the negotiations with the office of the Director General of Basic Industries of Indonesia. Howard said the company hopes to complete the survey phase of the project within about two months and to have final negotiations on the construction and operation of the steel plant completed by Oct. 15.

The unfinished steel plant is at Tjilegon in West Java. It

was started by Russia during the regime of President Sukarno. However, the Russians stopped sending equipment and technicians to Tjilegon in 1965 and work came to a virtual halt. At that point, an estimated \$30,000,000 to \$33,000,000 had been invested.

Howard, who recently inspected the site, said some buildings are completed and some in various stages of construction. The project includes a small harbor nearby with power and water supply facilities for the steel mill.

The Russian plans called for a capacity of 100,000 to 150,000 tons a year of rod and wire products. The current demand for rod and wire products in Indonesia is in excess of the projected initial capacity of the plant, Howard said, and its output for the time being would be solely for domestic use.

Granite City Steel Co. is a medium-sized producer of flat rolled steel products including plate, hot and cold rolled sheet and galvanized sheet. An iron ore mine and pellet plant in which Granite City steel owns a half interest is at Pilot Knob, Mo., 85 miles away from its Granite City plant.

The two-week vacations are for the 800 production workers employed at the plant. Production is to be resumed July 15.

Sesqui Fete is Planned At Kaskaskia on July 4

Independence Day will have a special statewide significance this year at the historic site of Kaskaskia which was captured from the British by George Rogers Clark 180 years ago on July 4 and later became the first capital of Illinois.

Representatives of the French and British governments and the Commonwealth of Virginia will participate with state and Illinois Sesquicentennial officials in impressive ceremonies tracing the state's history under five flags. The natural amphitheater at Kaskaskia will serve as a stage for the event written by Ver Lynn Sprague, director of the Illinois Sesquicentennial Commission. Jean Louis Mandeville and F. Stephen Miles, consultants general of France and Great Britain, and Park Rouse, special representative of the governor of Virginia, will be present.

Clark's capture of Kaskaskia in 1779 brought the Illinois territory under Virginia rule. Previously, the French flag flew over the state from 1679 until 1763. Virginia ceded her western lands to the federal government in 1784 and Illinois became a member of the Union in 1818.

Additional flags to be honored are the Illinois state banner and the 11-star United States flag, indicating Illinois' order of admission to the Union.

Visitors to Kaskaskia State Park and nearby Steelville will come for a full day of July 4 observances. A morning parade will begin at 10 a.m. in Steelville with marching musical units, floats and veterans' organizations. "Illinois Under Five Flags" will be staged at 2 p.m. at Kaskaskia State Park with Sesquicentennial Commission Chairman Robert G. Nam, III as master of ceremonies.

Nazarenes Preparing For District Assembly

The pastor and a delegation of members of the First Church of the Nazarene, 240 East 25th street will take part in the 25th anniversary assembly of the Illinois district to be held at the Nazarene Acres, Mechanicsburg, on Wednesday through Friday, July 31-Aug. 2. Annual reports will be made by all pastors.

Dr. L. S. Oliver, Springfield, will give his annual message as district superintendent outlining plans for the 1968-69 year, and district officers will be elected.

Presiding general superintendent will be Dr. V. H. Lewis, Kansas City, Mo., who was re-elected to his third four-year term July 18. The district assembly held at Kansas City, Mo. 1964-65, highlights their included election of several new leaders.

The denomination's world membership has reached 453,000 persons. The church passed the one-million mark in Sunday school enrollment early this year. The world offices and a publishing house are in Kansas City, Mo.

Theme for the 1968-72 quadrennium is a capsule of the Christian philosophy for the hour: "These times... God is able!"

New general superintendents are Dr. Edward Lawlor, secretary of evangelism; Dr. Eugene Stowe, president of Nazarene Theological Seminary; and Dr. Orville W. Jenkins, secretary of home missions. General superintendents re-elected are Dr. Samuel Young, Dr. Lewis and Dr. George Coulter. All six of the general superintendents reside in Kansas City.

Dr. Lewis, presenting the quadrennial message of the Board of General Superintendents, has asked Nazarenes to raise \$30,000,000 for world missions in 1968-72, an increase of nearly \$5,000,000 over the record sum of \$23,729,000 raised for world missions in 1964-68.

Other goals for the next four years are 400 new churches, a net gain of 70,000 members and a gain in Sunday school enrollment to 1,100,000 persons.

Area Man, 67, Charged With Armed Robbery

Carl Mahurin, 67, of 1306 Chouteau Slough road, was arrested Friday evening and charged with armed robbery at Rusty's restaurant on June 17.

He was arrested at his home by Edwardsville police and a Madison county sheriff's deputy after an anonymous tip was received from a person who saw

Mr. and Mrs. Jerry Borge, Mr. and Mrs. Joe Robinson, Tony Shiruts, Virgil Layton, Richard Stecks, Charles Crow and Mrs. Ruth Welch.

Carol LaCorte celebrated her birthday Friday at the Horseshoe Lake Rod and Gun club. Cake and coffee were served.

a composite sketch of a suspect developed by state police on descriptions of witnesses.

Police said a robber entered the rear of the restaurant armed with a revolver and forced employees to lie on the floor while he rifled the cash register. He then forced co-owner Ronald Badalamenti to open the safe. The amount of money taken ranged from \$600 to \$1100.

The robber, armed with a .32 caliber revolver, ordered Badalamenti to drive him to a junk yard near the Sunset Hills country club. The robber ordered the owner out of the car and then drove off, abandoning the auto a short distance away.

Mahurin was released on \$15,000 bond pending a preliminary hearing expected to be held this week.

Illinois in 1818--Territory Began Move Toward Statehood At Suggestion of Editor, Governor

(From the Files of the Granite City Press-Record)

Although statehood for Illinois had been discussed in the territory for some time, the movement which immediately resulted in its consummation was inaugurated in November 1817 by Daniel Pope Cook.

Cook was a young man who had been appointed Auditor of Public Accounts by the governor in January 1816. He had recently purchased from Matthew D. Duncan the "Illinois Herald" at Kaskaskia and had changed its name to the "Western Intelligencer."

On Nov. 20, 1817, the following editorial appeared in the Intelligencer of Kaskaskia:

"While we are laboring under so many of the grievances of a territorial or semi-monarchical government, might not our claims to a state government be justly urged?"

"The part of our territory which most ultimately form a state will undoubtedly be willing to take the burden of a state government upon themselves at this time, rather than submit any longer to those degradations which they have so long been compelled to put up with."

This utterance was a prelude to a discussion of the subject in which Cook took the leading part.

In the next issue of the paper there appeared the expected "view of the subject," written by Cook over the signature of "A Republican."

Asserting that the population of the territory had "increased to a sufficient number to enable us to take into our own hands the reins of self-government," he proceeded "to inquire into the policy of our doing so, as well as the practicability of obtaining the sanction of the general government to such a measure."

Possible objections were first considered, one of which was the additional expense to the people which statehood would involve. The national government was paying salaries for Illinois Territory to the amount of \$200,000, and this was worthy of serious consideration in that day of small things.

Cook could only hold out the promise that state government officials might be prevailed upon to accept smaller salaries at first.

Another objection was the ignorance of the population, which he maintained, was based on the assumption that a large proportion of the people were French. This he countered by saying nine-tenths of the voters were Americans and before coming to Illinois, had taken part in state government.

On the positive side, he urged the advantage of state government, pointing out that the legislature would be free from the absolute veto of the governor and would become supreme in internal affairs of the state.

Three days after his communication appeared in the newspaper, the Legislature assembled at Kaskaskia. On the following day, Dec. 2, 1817, Governor Edwards delivered his message to the House.

The members and the citizens at large were congratulated "upon the flattering prospects which our astonishingly rapid increase of population affords, that our present temporary government must soon give place to one more congenial to the principles of liberty."

Upon the motion of Representative Bradbury of St. Clair county, a resolution was adopted for the "appointment of a committee to draft a petition to Congress asking for this territory to be admitted into the Union, with all the rights and privileges of a state government."

This resolution was laid before the governor for his approval on Dec. 10, and Illinois territory was thus started on the way to statehood.

Lake Recreation, Sports Also An Issue in Northern Part of State

(Illinois Committee for Pure Air and Water)

In the spring, many newspapers throughout the state carry similar reports reading: "Heavy rains have caused flooding in the area as local streams and rivers overflow their banks."

In northern Illinois, the community of DePue for years centered its activities around Lake DePue, stretching five miles long and three-fourths of a mile wide.

The purity of the lake's water made the town famous for its ice industry.

Docks abounded along the lake front. Commercial fishermen brought record catches and top prices. And the lake was a source of pleasure for those enjoying boating, fishing, hunting and fishing, and swimming.

Today, swimming is no longer a major attraction—the lake is too muddy and murky.

Show boats were once a frequent sight on the lake, but heavy traffic has been cut off due to the "filling in" of silt.

One of the highlights of the year at DePue was the annual outdoor regatta held by the American Power Boat Association. But, if the silt keeps flowing into the lake, the regatta will soon be a thing of the past.

Community leaders are presently struggling hard to whip up a program they can finance to "save the lake."

These problems aren't isolated cases—they are reflections of the state-wide picture concerning water resources.

For too many years, residents have been using, reusing and mistreating nature's provisions. Now we are reaping the dangers of such neglect.

Virtually every Illinois citizen can turn a tap—and water comes out for drinking, washing dishes, taking a bath, or watering the lawn. Rarely is a thought given to the supply and quality of the water.

But water resources officials have been taking long, close looks at the supply for the last few years. They have compiled a lot of information on what is happening to the resources and what the future will bring.

They see a water shortage and other problems which are going to be serious. To deal with them, they are working to get public approval of a \$1 billion water-reclamation program in the November 1958 election.

In a great many cases, the law would work an injustice and hardship on some of our senior citizens, whose only crime is in owning an old shotgun to hunt rabbits and quail.

These old men, surviving on their pensions, do not like to spend \$6 every day, particularly on something as simple as a \$6 permit to own a gun. I am going to find out what legislators voted for this law.

Specifically, I refer to the new Illinois gun law. It will be impossible to enforce this law to any great extent.

As a result, the law will be a good Constitutional argument against the law and it might not stand up in court.

When I find out what legislators voted for this law, I will be able to tell you. I am going to vote against them when they try to get re-elected to their legislative positions.

What is to prevent a good citizen with no gun-owner's card from buying some shells, or even a gun, through a good friend who has a gun owner's card?

Since the Kennedy assassination, a creeping hysteria has taken hold to have swept over the land. This mania manifests itself in the screaming of Senator Dodd, Mayor Cermak, John Glenn, the astronaut, and many others. They should know better, and they would know better if they realized that they get from the taxpayers who support them in their luxury.

The newspapers are helping to spread the alarm. The dailies like to keep us posted on the "Number One" news of the "Week." Their last tabulation was 196 for one week.

Simmons, Simon Among At-Large Demo Delegates

Walter T. "Buck" Simmons of Venice, chairman of the Madison county Democratic central committee, and State Senator Paul Simon of Troy were included on a list of 68 delegates at-large to the national Democratic nominating convention named at the state Democratic convention in Springfield Friday.

The party chose the 68 hand-picked delegates at large after Dick H. Mudge of Edwardsville, elected in the June 11 primary as a committed McCarthy delegate, attempted unsuccessfully to get the state committee to name 20 at-large delegates committed to McCarthy. Mudge was booted several times during a ten-minute speech and his slate of delegates was rejected by a voice vote.

Also included on the finally accepted list were Mayor Alvin G. Fields of East St. Louis; Fannie G. Jones of East St. Louis; Maurice Joseph and State Senator Alan J. Dixon, both of Belleville.

Leaders assured McCarthy supporters that the bulk of at-large delegates is uncommitted, but a check of the list showed some who recently declared their support of Vice-President Hubert Humphrey.

The convention also nominated three University of Illinois Trustees candidates to be elected in the November election. Delegates named Mrs. Frances Beale Williams of Chicago, Timothy Ives, Bloomington, and Mayor Richard Daley of Chicago who presided over the two and a half-hour convention declared "this is an open convention and we're supporting one behind the people's back."

Referring to reports he soon would declare for Humphrey, Daley said "some of my members of the press simply don't know what's going on."

Mercer scored two runs in each of the fourth and sixth innings and three more in the eighth as Bob Finke tripled home the winning run. The War Veterans had scored one in the fourth and one in the sixth and took a 6-4 lead.

Twenty delegates from the Quad-Cities participated in party unity discussions Saturday night in Springfield at the 1968 Republican state convention and viewed an arm-in-arm appearance by Richard B. Ogilvie, GOP nominee for governor, and John Henry Altorfer, runner-up to Ogilvie in the June primary election. Speakers included the two U. S. senators from Illinois, Dick Durbin and Charles McNichols. H. Percy, and business included selection of Timothy W. Swain, Peoria, and Earl M. Hughes, Woodstock, incumbents, and Russell W. Steger, Chicago, as candidates for the University of Illinois board of trustees. Ten at-large delegates chosen for the Republican national convention opening Aug. 5 in Miami, Fla., included Illinois House Speaker Ralph T. Smith, a native Granite Cityan who represents this district in the General Assembly. College-age spectators paraded on behalf of the candidates for New York Gov. Nelson Rockefeller for president, but party leaders indicated that McGovern, a native Granite Cityan, was the favorite. National delegates favor former Vice-President Richard Nixon. In addition to formal sessions at the Illinois State Armory, the local contingent was able to confer with officials and candidates during a coffee hour at the Leland Hotel.

Village-Township To Meet on Flood Problem at Lake

Rising water levels in Long Lake — apparently resulting from clogged culverts located near the railroad tracks at the south end of the lake — which appear likely to flood lakeshore property in the immediate future, will be the topic of a special meeting tomorrow evening between Pontoon Beach village trustees and Nameoki township officials, at the Nameoki general assistance office, 4250 Highway 162. Concern about the current high water level was expressed Thursday night by members of the Pontoon Beach village board, who instructed Village President Thomas Stalcov to arrange the joint meeting with the township to determine a plan of action. Excessive debris, lodged in the culverts, primarily is responsible for the rising lake level, the board officials noted. In other action, the village trustees authorized an extensive road repair and improvement program, with motor fuel tax funds, scheduled to start in about two weeks, and awarded a contract for acquisition of road materials to Mid-West Black Top Co., the sole bidder.

3 Jobs Available

Stalcov said that high school age youths, residing in Pontoon Beach, who are interested in hourly work clearing ditches and weed cutting, may apply for jobs by calling, 831-0111, or 831-0336.

Lowering of the present 45 mph speed limit to 35 mph on Pontoon road within the village boundaries will be sought from state highway department authorities, Stalcov reported. He cited increased traffic due to several new business firms now located in the area and the number of students who walk along the highway right-of-way to the new Grigby junior high school this fall.

A meeting also is being arranged with Bi-State Transit officials in an effort to have bus service restored to the village area, the board president said. He noted that buses currently have a three to five minute "layover" period at Maryville and Pontoon road, said he hopes the public transportation company will extend service into the village replacing the layover.

Construction of a 90x190-foot skating rink and an automatic ice resurfacing machine, which is under way on 3900 block of Lake drive, was reported. The concrete-block roller rink, which includes snack bar facilities, and the car wash are being built by Jim Green Construction Co.

Warren M. Taylor, son of Mr. and Mrs. Willie Taylor, 100 Booker street, Madison, a student at Western Illinois University in Macomb, is attending Army Reserve Officers' Training course summer camp. The course began June 16 at the Infantry School, Fort Benning, Ga.

The six-week training program at the camp includes instruction in physical conditioning, leadership, rifle, marksmanship and taking part in field exercises. Upon successful completion of summer camp and graduation from college, he will be eligible to be commissioned as a second lieutenant in the U. S. Army.

Mr. and Mrs. Harold Fouts, 1601 Second street, Madison, is a member of the unit at Blount AFB, Vietnam, which has won selection as the best tactical fighter wing in the U. S. Air Force.

Sgt. Fouts, a graduate of Madison high school, is a craft instrument repairman with the 3rd Tactical Fighter Wing, which has received the trophy named for the commander of the Tactical Air Command by the sponsoring American Fighter Pilots Association for its enviable combat record.

Traffic Charge Filed

Joseph E. Harney, St. Louis, was charged with driving without stop or signal light Thursday at 23rd street and Madison avenue.

Collision on Lot

Autos driven by Alan Namey, 3123 Davis avenue, and Wilma Stein, 1613 Venice avenue, were involved in a collision Saturday afternoon on the lot of Nameoki Village shopping center.

School Window Broken

A wind pane in a wall at the 21st street side of Central junior high school was found broken at 2:25 a.m. today. It was undetermined if entry was made.

Two Autos Collide

Autos driven by Bruce L. White, 3024 Warren avenue, and Theodore C. Miner, 46 Terrace lane, collided at 2 a.m. Saturday at Madison avenue and Nameoki road.

More Landowners Planting Trees from State Nurseries

More landowners are planting trees than ever before, the Illinois Department of Conservation reported today. Last spring about 5 1/2 million pines and hardwoods were planted, enough trees to completely cover more than 5000 acres of land. A total of 2100 landowners bought trees or wildlife shrubs from the state nurseries, an increase over last year. Scotch pine, a Christmas tree variety, was the most popular tree. About 1,200,000 were sold. Approximately 800,000 white pine were purchased. Other popular conifers were red pine and white pine. The demand from black walnut was higher than for other kinds of hardwood trees. About 245,000 seedling trees and walnut seeds were shipped from the state nurseries to landowners. Oaks, sycamore, red gum and tulip poplar were sold in substantial numbers by the Division of Forestry. Over 800,000 mulberry trees were sold. This shrub is planted as a living fence to provide protection for wildlife. Autumn olive, shrub dogwood, Siberian pea and bush honeysuckle are other wildlife shrubs sold by the state nurseries. The number of wildlife packages sold increased 11 per cent over last year. The packages contain 500 shrubs and trees and are designed for planting in small areas.

April Aid Costs Up Again: Rise \$51,000 Over March

Public aid payments to Madison county recipients increased to \$746,225 during April, a rise of \$51,927 over the \$694,298 paid out in all five categories of public aid during March, it was reported yesterday by the Illinois State Department of Public Aid.

The county's aid rolls also increased during April, with 10,596 residents receiving some form of aid. Payments were made to 10,477 clients in March. While the county's combined aid rolls thus showed an increase of 119 persons in April, there was an increase of 153 persons in the total number of clients receiving aid to dependent children.

ADC funds totaling \$384,668 were paid 6868 clients in April, compared to payments of \$317,638 to 6715 recipients in March, the report showed. The number of persons receiving general assistance during April decreased, however, by 153 persons below the March roll. March payments of \$30,839 were made to 1525 recipients, while in April a larger sum of

\$32,646 was paid to the smaller number of 1470 recipients. Old age assistant payments of \$230,541 were made during April to 1395 clients, compared to payments of \$243,916 to 1387 clients in March.

Blind Payments Up
April payments to blind pensioners amounted to \$4143, with 39 clients receiving payments. March blind payments totaled \$3423 for the same number of pensioners.

Disability allotments rose to \$116,235 in April from \$99,494 paid in March. The April payments were distributed to 824 persons, while 811 received the March payment.

At the state level all forms of aid except old age assistance increased during April, according to Harold O. Swank, director of the state Public Aid department. Swank said an overall increase of 1966 brought the number of persons on the rolls to 489,168 in April, compared to 487,602 in March this year and 434,527 in April 1967.

Expenditures throughout the state for April amounted to \$35,719,498, compared to \$34,176,538 for March and \$27,039,402 for April 1967. Swank said the expenditures included \$1,608,000 almost entirely on old age assistance in current and retroactive payments to the Department of Mental Health for persons age 65 and over eligible for public aid and residing in state hospitals.

Governor Favors Expansion Of Lewis and Clark Park

A plan to expand the Lewis and Clark Memorial and make it a major historical attraction has been forwarded by Gov. Samuel H. Shapiro to Col. Edward K. Shapiro, district engineer for the U.S. Corps of Engineers, St. Louis.

The plan involves the transfer of about 300 acres, now being held by the Corps of Engineers, to the Illinois Department of Conservation, and the outright acquisition of 217 acres of privately owned land. The area eventually will become a state park of more than 500 acres with facilities for camping, picnicking and hiking. The park also will include food concessions and service areas.

In announcing the project, Gov. Shapiro said that when the project is fully completed and developed, it will become one of the most significant historical sites in the Midwest. Cost of the project is estimated to be in excess of \$1 million. The governor pointed out that the necessary develop-

ment funds will have to be provided by the Illinois General Assembly, but that funds for the land purchases are available through the Illinois Building Authority.

The plan forwarded to the Corps of Engineers was prepared by the Department of Conservation. It already has been approved by the department's advisory board and has been sent to the Illinois Building Authority. After approval by the Illinois Building Authority, the necessary land appraisal will be made by the authority. The final land acquisition will be negotiated by the Department of Conservation.

WILL YOU MAKE ANY OF THESE MISTAKES IN YOUR REMODELING?

1. WILL YOU DEAL WITH A "JACK OF ALL TRADES" INSTEAD OF A GENERAL CONTRACTOR?
Handy men "Jack of all Trades" are just that—handy to have around for an emergency, but when it comes to remodeling you need the experience and dependability of years of experience in handling construction and materials.
2. WILL YOU ALLOW JUST ANY WORKMAN TO DO ANY PART OF YOUR WORK?
We know that our people have the intensive training to do your job. Carpentry work is done by carpenters; electrical work by electricians, etc.
3. WILL YOU FAIL TO GET GUARANTEED NATIONALLY ADVERTISED MATERIALS?
Why take the gamble of having reclaimed, used or unknown brands of materials used in your work. Gauen Lumber Company has a reputation for quality materials regardless of the size of your job.
4. WILL YOU GET IMPROPER ADVICE AND LACK OF GUIDANCE?
At Gauen, we guarantee the service of a qualified remodeling man, especially trained for this type of work. In most cases he will try to save you money.
5. WILL YOU FAIL TO GET PROPER BUILDING PERMITS?
No remodeling work of any kind should be started without proper permission to do the same. A building permit is required for this. We will obtain all necessary permits for you. Our designers will draw your plans and full supervision is given while your job is in process.
6. WILL YOU GET INSUFFICIENT CREDIT HELP?
At Gauen we will try to work out a plan to comfortably fit your budget, and still take care of your needs.
7. WILL YOU DEAL WITH AN UNKNOWN FIRM, A FLASH IN THE PAN GUY?
We have been in your area, serving the people here for 106 years. We are in business today, tomorrow, and we will be here to back up what we do.

7 GC Band Students Win Summer Scholarships

Seven senior band students at Granite City high school have been awarded full music scholarships for the Summer Music and Youth Department of Music program at Southern Illinois University-Carbondale campus, to be held July 7 through July 20, it was announced today by Louis Meek, band director.

Scholarship grants to five of the students are being provided by three local women's clubs and the remaining two were awarded by Southern Illinois University, the music education supervisor said.

Students will attend music classes daily and reside in college dormitories reserved for them on the Carbondale campus. On July 19, the local music seniors will appear as members of the Summer Youth

Band, in a concert to which the public is invited, he said.

Clubs awarding the scholarships and the students selected, are:

The Nameoki Woman's Club, with Mrs. Bernadine Cooley as president for the past year, is sponsoring Laura McCommis, the daughter of Mr. and Mrs. Boyd McCommis, 2504 Center street, on bassoon; and Dennis Meyer, son of Mrs. Frank Meyer, 2004 St. Clair avenue, in cornet.

The Ladies Coterie, headed during 1967-68 by Mrs. Hulda Griffith as president, will sponsor Janice Chandler, a B-flat clarinetist and daughter of Mr. and Mrs. Leland Chandler, 2604 Dogwood drive, and Terry Hulse, a flutist, the daughter of Mr. and Mrs. Roy C. Hulse, 2904 Fortune drive.

The Minerva Club, with Mrs. Phyllis Hodge as president for the past year, is sponsoring Beth Ledbetter, on oboe, the daughter of Mr. and Mrs. William F. Ledbetter, 3216 Harvard drive.

Full scholarships were issued by SIU to Mike Burris, the son of Mr. and Mrs. George Burris, 2604 Sheridan avenue, on baritone; and Russell Gertsch, a B-flat clarinetist and son of Mr. and Mrs. Leonard Gertsch, 614 Garfield avenue.

Hearings Continue in Shell Gasoline Theft

A preliminary hearing for one of three defendants charged with theft of about 250 gallons of gasoline from the Shell Oil Co. refinery was continued today after Magistrate Joseph Kelleher testimony from seven witnesses on Friday in circuit court at Edwardsville.

The current hearing is for William Waters, 46, of Jacksonville, a truck driver. Other hearings are to follow for Herman Wilson, 37, of 2208 Nevada avenue, and James Riley, 38, of Wood River, both plant employees.

Two other suspects appeared last week at the county sheriff's office to face theft charges and were released on bond. They are Cecil Hauch, a Belleville truck driver, who appeared on Wednesday, and Harry Melow, owner of a Wood River service station, who accompanied his attorney on Thursday. Melow had been in California.

Melow's service station was named as the outlet for most of the allegedly stolen gasoline. The first three were arrested June 21 after company officials found that gas meters at a pump rack had been tampered with and the operation was staked out.

Eighteen Shell supervisors connected with the investigation were called to the hearings on Friday.

GC Woman Sues Over Injuries in 2 Mishaps

A damage suit for \$25,000 was filed for Mrs. Irma Werthe of Granite City in Madison county circuit court last week as the result of injuries sustained in two different auto accidents.

According to the complaint, she was first injured on Feb. 23, 1967, when she parked her auto at 2654 Madison avenue. It was struck from the rear by another driven by Michael B. Toundas.

The complaint said she was injured again on May 28, 1967, when an auto in which she was riding, driven by John Tritsch of Granite City, was struck by another driven by William Doss in St. Louis. Both drivers were named as defendants.

\$150,000 Suit Filed Over Plant Accident

A suit for \$150,000 was filed for William D. Cochran against the Nestle Co. and S. M. Wilson Construction Co. last week in Madison county circuit court at Edwardsville.

According to the complaint, Cochran, employed on a construction project at the local plant, fell from a scaffold onto the floor and sustained severe injuries. Negligence was charged.

State Delays Gun Law Enforcement

Enforcement of today's deadline for gun owners registration in the state has been relaxed for two months, it was announced Friday at Springfield by Rosa V. Randolph, director of public safety.

The new deadline is Sept. 1. Randolph said the firearms owner identification division at Springfield has been swamped with between 10,000 and 20,000 applications each day, and nearly 350,000 applications for identity cards have yet to be processed.

Man in Mishap Arrested

Autos driven by Charles W. Staggs, 2413 Edwards street, and Elizabeth A. Schwager, 2807 Waterman avenue, collided at 11:55 a.m. Friday at Nameoki and Fehling roads. Staggs was charged with failure to yield the right-of-way on a left turn.

Turns Left, Struck

While attempting to make a left turn onto Cottage avenue from Nameoki road, the right rear of an auto driven by Kathleen A. McCalla, 1541 Cottage avenue, was struck from behind by another driven by Lester Lee Stum, Torrance, Calif.
